Digital Transformation of the Design, Construction and Management Processes of the Built Environment Bruno Daniotti

2019-01-01 This open access book focuses on the development of methods, interoperable and integrated ICT tools, and survey techniques for optimal management of the building process. The construction sector is facing an increasing demand for major innovations in terms of digital dematerialization and technologies such as the Internet of Things, big data, advanced manufacturing, robotics, 3D printing, blockchain technologies and artificial intelligence. The demand for simplification and transparency in information management and for the rationalization and optimization of very fragmented and splintered processes is a key driver for digitization. The book describes the contribution of the ABC Department of the Polytechnic University of Milan (Politecnico di Milano) to R&D activities regarding methods and ICT tools for the interoperable management of the different phases of the building process, including design, construction, and management. Informative case studies complement the theoretical discussion. The book will be of interest to all stakeholders in the building process - owners, designers, constructors, and faculty managers - as well as the research sector.

Kleine große Orgelwelt Klemens Schnorr 2019-04-01 Bei keinem anderen Musikinstrument ist der Gegensatz klein - groß so ausgeprägt wie bei der Orgel. Besitzt ein Positiv von den Ausmaßen eines Kleiderschranks vielleicht vier bis sechs Register, d. h. ca. 200 bis 300 Pfeifen, so verfügt die Passauer Domorgel, in den 1920er-Jahren als größte Orgel der Welt erbaut, aktuell (seit 1993) über 233 Register und knapp 18.000 Pfeifen. Der vorliegende Band widmet sich in seinen 25 Beiträgen größeren und kleineren Orgeln sowie älterer und neuerer Orgelmusik. Nachdem alle Beiträge schon einmal im Druck erschienen sind - teils an entlegenen Orten -, wurden sie für den Wiederabdruck neu durchgesehen und aktualisiert. Die Spannweite der Themen reicht dabei von älterer süddeutscher Orgelmusik bis zu dem Komponisten Karl Höller (1907-1987), von dem zwei bislang unbekannte Jugendwerke präsentiert werden. Quer durch alle Beiträge zieht sich der enge Zusammenhang von Orgelbau und Orgelspiel, der auch in der langjährigen beruflichen Praxis des Verfassers als Orgellehrer und als Orgelspieler immer wieder ein zentrales Thema war.

Grading women's garments Nathalie Coppin 2021-05-01 Enlarging or reducing a sewing pattern - Grading women's garments fashion book This book, the third stage in our "Become a Pattern drafter / Women's garments"" series, completes the creation of garments developed earlier using a point-by-point explanation of how to move from one size to the other. Conceived to respond to the needs of today's clothing and fashion industry, it also addresses individuals passionate about sewing thanks to the choice of models used which can serve as examples for creating a multitude of other designs. ABOUT THE AUTHOR A patternmaker in the clothing industry and then a trainer for the LECTRA company, Nathalie Coppin currently gives all CAD classes in patternmaking at ESMOD Paris. She was thus the best person to write this book on methods for grading.

State Law and Legal Positivism 2021-12-13 There was a truly global revolution that reflected a Great Divide between ancient and new legal regimes. The volume emphasizes its depth and scale and explores the phenomenon in the contexts of Morocco, Egypt, India, the Ottoman empire, China, and Japan.

Historizität von Ereignissen. Die zentrale Frage dabei ist: Wie wurde Lepanto weltweit zu einem Ereignis gemacht? Durch Forschungen in über 170 Archiven, Bibliotheken und Museen dezentriert der Autor die Geschichte der Seeschlacht von Lepanto, die bisher als Sieg des ›christlichen Europas‹ beschrieben wurde, und macht verschwiegene Geschichten der Ereignisproduktion sichtbar. Deutlich wird, wie Zeitgenossen die Bedeutung der Schlacht weltweit verhandelten und aus einem Geschehnis ein Ereignis formten, das für binäre Weltkonstruktionen herangezogen wurde: in England, Italien und Spanien ebenso wie in den deutschsprachigen Ländern, in Äthiopien, Russland, im Osmanischen Reich, Japan, den Philippinen und Südamerika. Stefan Hanß examines the sixteenth-century global event-making of the Battle of Lepanto. He decenters the history of Lepanto, which is commonly defined as a victory of 'Christian Europe', by revoicing silenced stories uncovered through research undertaken in more than 170 archives, libraries and museums. Contemporaries shaped Lepanto's meanings as connected histories in areas ranging from London to Venice, Rome, Sicily and Ethiopia, from the German lands, Russia, the Ottoman Empire, Persia and Japan to the Philippines, South America and the Iberian Peninsula. By challenging the perception of a particular battle, the volume contributes to a broader methodological debate on the status of events in history. "Beiträge, die in den kommenden Jahrzehnten zur Seeschlacht von Lepanto erscheinen und dabei auf unbekannte Quellen zurückgreifen, werden vermutlich stets den Satz einflechten "noch nicht von Hanß berücksichtigt". Denn sicher mag man noch hier und da ein Dokument zu diesem einschneidenden Ereignis in versteckten Archiven und Nachlässen finden, (...) man darf sich dann aber angesichts von 103 benutzten Archiven, Museen und Bibliotheken (abgesehen von einer schieren Unmenge gedruckter Zeugnisse) schon eines Neufundes ‚post Hanß‘ rühmen." Cornel Zwierlein in: Zeitschrift für Historische Forschung 46, no. 4 (2019). "Overall, Hans has truly excelled. The temporal and geographical range, the meticulous reconstruction of innumerable case studies, the author’s boundless curiosity and unbreakable tenacity, will be hard to match. (...) There can be little doubt, however, that the publications discussed in this review are an outstanding achievement. Indeed, would it not go against the grain of the main argument, one would be tempted to speak of them as an Ereignis." Sundar Henny in: Journal of Early Modern History 24 (2020) "Nicht nur für das Verfahren des dezentrierenden glocal storytelling wird die vorliegende Arbeit ein einschlägiges Referenzwerk sein." Yigit Topkaya in Traverse 26/2 (2019) "Der große Ertrag beider Studien besteht (...) in der zuvor in dieser Breite und Dichte noch nie geleisteten Zusammenschau von regional-lokalen, religiös-konfessionellen und schichtspezifischen Praktiken der Auseinandersetzung mit Lepanto meist innerhalb Europas, teils aber auch darüber hinaus und hier in transkultureller wie globalgeschichtlicher Perspektive. Dabei arbeitet Stefan Hanß sehr detailliert und dicht an den Quellen den genuinen Zusammenhang zwischen historischen Macht- und Diskurskonstellationen heraus. Er zeigt, wie und warum manche Stimmen im Prozess der Bedeutungs-saushandlung Dominanz erlangten, andere hingegen kaum wahrnehmbar blieben oder überhaupt zum Schweigen gebracht wurden. Zu würdigen ist eine heroische Forschungsleistung (...).
