**Bringing History Alive through Local People and Places** Lynne Dixon 2013-12-04 A much-needed and delightful book. It

shows how history can be taught with the meaningful experiences of each child at its centre, making connections between the child, the locality

and community, the national and global past and concepts of time. Throughout the authors empower teachers to adopt their philosophy, by showing them how to plan, select resources and strategies and reflect on ideas and case studies. Hilary Cooper, Emeritus professor of history and pedagogy, The University of Cumbria, UK. *Bringing History Alive through Local People and Places* puts the local environment and community at the heart of history, showing how it can be used as the context for successful history teaching across the primary age range. It considers how to develop children's concepts and

skills through local history, how to link local, national and global aspects of history, and helps you develop your own historical knowledge, understanding and confidence in teaching the subject. Practical topics explored include: Investigating children's cultural and geographical roots through fieldwork Finding and visiting local museums, archives and heritage sights Choosing and using resources Using significant people, events and buildings to link with national history Environmental education and sustainable development through local history Understanding the links between history and everyday

life Planning and assessing history. Based on the latest research and practice in the field, *Bringing History Alive through Local People and Places* offers an exciting template of creative ideas and activities to show teachers how they can make history relevant to all children.

*Discrepant Parallels* Gillian Roberts 2015-05-01 The 49th parallel has long held a symbolic importance to Canadian cultural nationalists as a strong, though permeable, border. But in contemporary Canadian culture, the border has multiple meanings, and imbalances of cultural power

occur both across the Canada-US border as well as within Canada. *Discrepant Parallels* examines divergent relationships to, and investments in, the Canada-US border in a variety of media, such as travel writing, fiction, poetry, drama, and television. Tracing cultural production in Canada since the 1980s through the periods of FTA and NAFTA negotiations, and into the current, post-9/11 context, Gillian Roberts grapples with the border's changing relevance to Canadian nationalist, Indigenous, African Canadian, and Latin American perspectives. Drawing on Kant and Derrida, she theorizes the

49th parallel to account for the imbalance of cultural, political, and economic power between the two countries, as well as the current challenges to dominant definitions of Canadianness. Focusing on a border that is often overshadowed by the contentious US-Mexico divide, *Discrepant Parallels* analyzes the desire to establish Canadian-American sameness and difference from a multitude of perspectives, as well as its implications for how Canada is represented within and outside its national borders.

**Blue Notes** Robert P. Vande Kappelle 2011-04-07 Music, like romance, is the language of the soul. Music allows us to express ourselves, and in so doing makes us feel alive. Jazz

music, the only art form created by Americans, reminds us that the genius of America is improvisation; a good beat, a contagious rhythm, an emotional ballad, creative improvisation, jazz has it all. Jazz is the story of extraordinary human beings, black and white, male and female, children of privilege and children of despair, who were able to do what most of us only dream of doing: create art on the spot. Their stories are told in Blue Notes. Blue Notes contains profiles of 365 jazz personalities, one for each day of the year. Each vignette tells a story, some heartwarming, others tragic, but all memorable.

The daily entries also provide valuable information on jazz styles, jazz history, instruments and instrumentalists, and such related topics as jazz and religion, women in jazz, drug and alcohol abuse, and racism. These topics can be referenced through an extensive set of indexes. The book's appendix includes helpful background information, a concise overview of jazz music, and even a quiz on jazz biography. While Blue Notes is written for jazz fans in general, experts will value its comprehensive nature. So whether you are curious about jazz or simply love and appreciate music, Blue Notes will provide daily moments of

discovery and help you recognize what the rest of the world already has, a music so compelling that it can be said to define the human being in the twentieth century.

**Guiding Modern Girls** Kristine Alexander 2017-11-15 Across the British Empire and the world, the 1920s and 1930s were a time of unprecedented social and cultural change. Girls and young women were at the heart of many of these shifts.

Out of this milieu, the Girl Guide movement emerged as a response to modern concerns about gender, race, class, and social instability. In this book, Kristine Alexander analyzes the ways in which Guiding sought

to mould young people in England, Canada, and India. It is a fascinating account that connects the histories of girlhood, internationalism, and empire, while asking how girls and young women understood and responded to Guiding's attempts to lead them toward a "useful" feminine future.

All Indians Do Not Live in  
Teepees (or Casinos) Catherine  
C. Robbins 2011-10 Both a  
tribute to the unique  
experiences of individual Native  
Americans and a celebration of  
the values that draw American  
Indians together, this book  
explores contemporary Native  
life. Based on personal  
experience and grounded in  
journalism, this story begins

with the repatriation of ancestral remains, excavated during an archaeological expedition nearly a century earlier, to the Pueblo peoples of New Mexico. This event, along with subsequent repatriations, has accelerated similar momentum across much of Native America. Author Catherine C. Robbins traces this restorative effect in areas such as economic development, urbanization, the arts, science, and health care. Through dozens of interviews, Robbins draws out the voices of Indian people, some well-known and many at the grassroots level, to speak against the background of the narrative's historical context. The result is a rich

account of Native American life in contemporary America, revealing not a monolithic "Indian" experience, but rather a mosaic of diverse peoples existing on a continuum that marks both their distinctions and their shared realities.--From publisher description.

**The Comprehensive Respiratory Therapist Exam Review E-Book**

James R. Sills 2020-03-15 Gain realistic National Board of Respiratory Care (NBRC) Exam experience to help eliminate exam day surprises! The Comprehensive Respiratory Therapist's Exam Review, 7th Edition covers every topic listed on the 2020 NBRC Detailed Content Outline – and presents

every item listed as testable on the Therapist Multiple Choice (TMC) Exam and Clinical Simulation Exam (CSE). It provides study hints, in-depth content review, and self-assessment questions with rationales to help you retain more information. Two practice exams on an accompanying Evolve website prepare you for the TMC Exam. In addition, twenty-two updated practice clinical simulation scenarios on Evolve offer invaluable CSE prep. Updated content reflects 2020 NBRC Detailed Content Outline and examination matrix so that you know exactly what to expect on the exams and can review each of the areas

covered on the matrix. Exam Hints point out commonly tested items to help you determine what to study, how to plan your time, and improve test-taking skills. Special NBRC coding of topics corresponds to every topic covered on the NBRC Detailed Content Outline (DCO) so that you know exactly what to expect on the exams and can easily review each of the areas covered on the DCO. Self-study questions at the end of each chapter include an answer key with rationales to help you analyze areas of strengths and weaknesses in content learned. Additional analysis-type questions account for changes in the testing matrix. Rationales

for each question provide feedback for correct and incorrect answers to help you understand why an answer is correct or incorrect and retain information better. Difficulty level codes (recall, application, analysis) for each question included with each NBRC topic to help you prepare for questions in a way that is most appropriate for that type of question (e.g., memorization for recall or synthesis for analysis). Twenty-two clinical simulations align in content and structure with the new 2020 NBRC Clinical Simulation Exam in both study mode and exam mode. In the untimed study mode you can select each scenario

individually and choose to receive detailed feedback on the items that were selected, or on all possible items, upon completion. In the exam mode you take all 22 scenarios with a 4-hour time limit and receive feedback after completion. The clinical simulations can be found on the secured Evolve website and accessed by a pin code (access code in book). The software mimics that used on the actual NBRC CSE. Two 160-question versions of the Therapist Multiple Choice (TMC) Exam align in content and structure with the new 2020 NBRC TMC Exam. The untimed study (pretest) version provides immediate feedback on each

question with a rationale about the correct and incorrect answers. The timed exam (posttest) version has a 3-hour limit. Feedback, including the correct answer and a rationale for the correct and the incorrect answers, is provided on each question upon completion. Final scores are given in the pretest and posttest versions, and the software for both versions mimics that used on the actual NBRC TMC Exam. The question sequence mixes with each repeated attempt, giving you a unique exam experience each time. This content can be found on the secured Evolve website and accessed by a pin code (access code in book).

*Annals of Native America*

Camilla Townsend 2016-10-14

For many generations, the Nahuas of Mexico maintained their tradition of the xiuhpohualli, or "year counts," telling and performing their history around communal firesides so that the memory of it would not be lost. When the Spaniards came, young Nahuas took the Roman letters taught to them by the friars and used the new alphabet to record

historical performances by elders. Between them, they wrote hundreds of pages, which circulated widely within their communities. Over the next century and a half, their descendants copied and recopied these texts, sometimes embellishing, sometimes extracting, and often expanding them chronologically. The annals, as they have usually been called, were written not only by Indians but also for Indians, without regard to European interests. As such they are rare and inordinately valuable texts. They have often been assumed to be both largely anonymous and at least partially inscrutable to modern

ears. In this work, Nahuatl scholar Camilla Townsend reveals the authors of most of the texts, restores them to their proper contexts, and makes sense of long misunderstood documents. She follows a remarkable chain of Nahua historians, generation by generation, exploring who they were, what they wrote, and why they wrote it. Sometimes they conceived of their work as a political act, reinstating bonds between communities, or between past, present, and future generations. Sometimes they conceived of it largely as art and delighted in offering language that was beautiful or startling or humorous. Annals of

Native America brings together, for the first time, samples of their many creations to offer a heretofore obscured history of the Nahuas and an alternate perspective on the Conquest and its aftermath.

**Ring of Power** Jean Shinoda Bolen 1999-02-01 A vivid grasp of the story and the characters in "The Ring of Niebelung" brings Richard Wagner's mythic four-opera cycle to life. The Ring Cycle has a hold on our imagination like no other operatic work because it is archetypal and has the power of myth as well as music to reverberate in the psyche. Bolen shows how myth illuminates psychology, and

more - Ring of Power goes beyond the psychology of the individual, revealing dysfunctional families and patriarchal institutions.

Describing Prescriptivism Ingrid Tieken-Boon van Ostade

2019-10-28 Describing

Prescriptivism provides a topical and thought-provoking analysis of linguistic prescriptivism in British and American English, from a historical as well as present-day perspective.

Focusing on usage guides and usage problems, the book takes a three-fold approach to present an in-depth analysis of the topic, featuring: a detailed study of the advice provided in usage guides over the years; an

authoritative comparison of this advice with actual usage as recorded in British and American corpora, including the HUGE (Hyper Usage Guide of English) database – developed specifically to enable this line of study – as well as more mainstream corpora such as COCA, COHA and the BNC; a close analysis of the attitudes to particular usage problems among the general public, based on surveys distributed online through the "Bridging the Unbridgeable" research project's blog.\* With extensive case studies to illustrate and support claims throughout, this comprehensive study is key reading for students and

researchers of prescriptivism, the history of English and sociolinguistics. \*Found at <https://bridgingtheunbridgeable.com/>

**Collaboration and the Future of Education**  
Gordon Andrews  
2015-10-08 Current educational reforms have given rise to various types of "educational Taylorism," which encourage the creation of efficiency models in pursuit of a unified way to teach. In history education curricula, this has been introduced through scripted textbook-based programs such as Teacher Curriculum Institute's History Alive! and completely online curricula. They include the jargon of

authentic methods, such as primary sources, cooperative learning, differentiated instruction, and access to technology; yet the craft of teaching is removed, and an experience that should be marked by discovery and reflection is replaced with comparatively empty processes. This volume provides systematic models and examples of ways that history teachers can compete with and effectively halt this transformation. The alternatives the authors present are based on collaborative models that address the art of teaching for pre-service and practicing secondary history teachers as

well as collegiate history educators. Relying on original research, and a maturing body of secondary literature on historical thinking, this book illuminates how collaboration can create real historical learning.

**Fifth Sun** Camilla Townsend  
2019-10-04 In November 1519, Hernando Cortés walked along a causeway leading to the capital of the Aztec kingdom and came face to face with Moctezuma. That story--and the story of what happened afterwards--has been told many times, but always following the narrative offered by the Spaniards. After all, we have been taught, it was the Europeans who held the pens. But the Native Americans were intrigued by the Roman alphabet and, unbeknownst to the newcomers, they used it to write detailed histories in their own language of Nahuatl. Until recently, these sources

remained obscure, only partially translated, and rarely consulted by scholars. For the first time, in **Fifth Sun**, the history of the Aztecs is offered in all its complexity based solely on the texts written by the indigenous people themselves. Camilla Townsend presents an accessible and humanized depiction of these native Mexicans, rather than seeing them as the exotic, bloody figures of European stereotypes. The conquest, in this work, is neither an apocalyptic moment, nor an origin story launching Mexicans into existence. The Mexica people had a history of their own long before the Europeans

arrived and did not simply capitulate to Spanish culture and colonization. Instead, they realigned their political allegiances, accommodated new obligations, adopted new technologies, and endured. This engaging revisionist history of the Aztecs, told through their own words, explores the experience of a once-powerful people facing the trauma of conquest and finding ways to survive, offering an empathetic interpretation for experts and non-specialists alike.
